

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and risks of this fund. You are advised to read it so you can make an informed decision about whether to invest.

Artemis Income Fund

Class R Distribution Units [ISIN: GB0006572464], R Accumulation units [ISIN: GB0032567926]

The fund is managed by Artemis Fund Managers Limited.

Objectives and investment policy

Objective: The fund aims to increase the value of units and the income paid from them over the long term.

Policy:

- The fund will principally invest (a minimum of 80%) in the shares of companies listed, quoted or traded in the UK.
- The fund has discretion in its choice of investments, and is not restricted by the size of the company or the industry it trades in.
- The fund may invest in fixed interest securities. These are investments (which could be issued by a company, a government or another entity) that pay a fixed level of income or interest.
- The fund may invest in preference shares. These are investments (issued by a company) that pay a fixed level of income. The income is paid as a dividend rather than interest and must be paid before any income from the company's other non-preference shares.
- The fund may invest in convertible bonds. These are investments (issued by a company) that can be exchanged for ordinary shares of the same company according to the terms specified when the bond was issued.

- The fund may use investment techniques to protect the value of the fund, involving using derivatives and forward contracts in order to reduce the risks otherwise associated with making investments in currencies other than the fund's accounting currency (sterling).

Other information:

- Investment in the fund should be regarded as a medium to long-term investment.
- You can buy and sell units Monday to Friday, except on UK Public holidays, each week.
- Transactions are done at 12 noon and we will include your instructions to buy or sell units if it is received before that point.
- If you hold accumulation units any income the fund receives is reinvested into the fund and automatically reflected in the value of the units.
- If you hold distribution units any income the fund receives can be paid out to you.

For further explanation of some of the terms used above, please visit our website artemis.co.uk to view a glossary of terms.

Risk and reward profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the fund.
- The risk category shown is not guaranteed and may change over time.
- A risk indicator of "1" does not mean that the investment is "risk free".
- The indicator is not a measure of the possibility of losing your investment.

The risk indicator for the fund is as above because:

- The price of units, and the income from them, can fall and rise because of stockmarket and currency movements.
- Stockmarket prices, currencies and interest rates can move irrationally and can be affected unpredictably by diverse factors, including political and economic events.
- A portion of the fund's assets may be invested in a currency other than the fund's accounting currency (sterling). The value of these assets, and the income

from them, may decrease if the currency falls in relation to sterling, in which the fund is valued and priced.

- Investments in fixed interest securities are subject to market and credit risk and will be impacted by movements in interest rates. Interest rate movements are determined by a number of economic factors, in particular market expectations of future inflation.
- The fund can invest in higher-yielding bonds, which may increase the risk to your capital due to a higher likelihood of the company issuing the bonds failing to pay returns on investments. Changes to market conditions and interest rates can have a larger effect on the values of higher-yielding bonds than other bonds.

Charges for the fund

- The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. The charges reduce the potential growth of your investment.
- The entry charge is included in the purchase price of each unit.
- At present, there is no exit charge.

One-off charges taken before or after you invest

Entry charge	5.25%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing charges	1.55%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

- The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds run by Artemis Fund Managers Limited) you might pay less – you can find out actual entry and exit charges from your financial adviser.
- The ongoing charges figure is based on the expenses for the year ending 30 March 2012.
- Ongoing charges may vary from year to year and reduce the potential growth of your investment. The figure for ongoing charges excludes costs associated with buying and selling securities in the funds' underlying portfolios (for example, broker's commission and stamp duty, currently 0.5%), except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.
- To provide levels of income consistent with the fund's aims, we take the annual management charge from capital. This will restrict the increase in the value of units.

Past performance

- This fund was launched on 6 June 2000.
- How the fund has performed in the past is not a guide to how it will perform in the future.
- Past performance in the chart shown, includes all charges except entry charges.
- This past performance chart is calculated using the distribution units.
- Performance is calculated in sterling.

Practical information

- The Trustee of the fund is National Westminster Bank plc.
