

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Fidelity Strategic Bond Fund, a sub-fund of Fidelity Investment Funds, Income Shares (ISIN: GB00B05NC857)

This fund is managed by FIL Investment Services (UK) Limited

Objectives and Investment Policy

- Aims to provide relatively high income with the possibility of capital growth.
- Invests primarily in sterling denominated (or hedged back to sterling) bonds.
- Has the freedom to invest outside the fund's principal geographies, market sectors, industries or asset classes.
- Can invest in bonds issued by governments, companies and other bodies.
- Can use derivatives with the aim of risk or cost reduction or to generate additional capital or income in line with the fund's risk profile. May also make extensive use of derivatives including more complex instruments or strategies to achieve the investment objective and these may result in leverage. In such situations performance may rise or fall more than it would have done otherwise, reflecting such additional exposure.
- The fund has discretion in its choices of investments within its objectives and policies.
- Income is reinvested in additional shares or paid to shareholders on request.
- Shares can usually be bought and sold each business day of the fund.
- This fund may not be appropriate for investors who plan to withdraw their money within 5 years. Investment in the fund should be regarded as a long-term investment.

Risk and Reward Profile

- The risk category was calculated using historical volatility data, based upon the methods set by European Union rules. Volatility is influenced by changes in the stock market prices, currencies and interest rates which can be affected unpredictably by diverse factors including political and economic events.
- The risk category may not be a reliable indication of the future risk profile of the fund.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.

- Investments in bonds are subject to credit risk and may not always repay at face value.
- The use of derivatives may result in performance rising or falling more than it would have done otherwise.
